

Sweepmaster B650

Hako

Clean ahead

OPERATOR PANEL

- 2. Charge control indicator
- 3. Key Switch
- 4. Park Brake
- 5. Drive Bar
- 6. Lever for folding apron
- 7. Side broom lever
- 8. Hopper locking lever
- 9. Handle Bar

Before Operation

- Disconnect mains plug of the charger from power outlet and insert into shaker cavity **13**
- Check the charge status indicator of the batteries **2**
- Check that the hoppers are clean **10**
- Adjust handle to operator height. Adjust via wing nuts **15** on either side of handle
- Check that panel filter is clean **11**
- Make sure park brake is applied **4**

Operating

1. Turn the machine on using the key switch **3**.
2. Open the bypass flap (in the case of wet refuse) **12**
3. Release the parking brake **4**
4. Lower/lift the side brush using the lever **7**
6. Lift the drive bar **5** to move forward.
7. Use the shaking system **13** to clean the filter regularly.
8. If picking up larger debris, open the intake chute via the folding apron lever **6**.
9. Check the dirt hoppers **10**. If necessary, empty the dirt hoppers.

After Operation (Maintenance and Service)

- Turn power off and apply the parking brake **4**
- Actuate the shaking device **13** (pull lever out and push back in again – repeat several times)
- Empty hoppers **10**. To remove dirt hoppers, move the hopper locking lever **8** to the right and pivot the handlebar **9** forward.
- Check the cylinder main broom for wear and foreign particles. Remove hoppers to access broom.
- Clean the machine as necessary
- Charge battery - take plug from inside shaker cavity **13** and connect with power outlet. Charge for a minimum of 8 hours.

Troubleshooting

Unsatisfactory sweeping result:

- The dirt hoppers **10** are full.
- Agitate the filter **13**. Clean or replace the filter, see operating manual.
- The side brush **14** or cylinder broom is worn. If necessary, readjust or replace it, see operating manual.

Qualified persons only are authorised to operate the machine!

Keep clear of hazard zone of the machine!

Please pay attention to the informations in the instruction manual!
